(Street play on Aids Day)

(Report)

Every year, on 1 December, the world commemorates World AIDS Day. People around the world unite to show support for people living with and affected by HIV and to remember those who lost their lives to AIDS.

The inequalities which perpetuate the AIDS pandemic are not inevitable; we can tackle them. This World AIDS Day, UNAIDS is urging each of us to address the inequalities which are holding back progress in ending AIDS.

The "Equalize" slogan is a call to action. It is a prompt for all of us to work for the proven practical actions needed to address inequalities and help end AIDS.

It encourages people to unite globally to eliminate the disparities and inequities that create barriers to HIV testing, prevention, and access to HIV care. First observed in 1988, World AIDS Day is a day to unite to help end HIV and remember those lost to AIDS-related illnesses.

The day is an opportunity for public and private partners to spread awareness about the status of the pandemic and encourage progress in HIV/AIDS prevention, treatment and care around the world. It has become one of the most widely recognized international health days and a key opportunity to raise awareness, commemorate those who have died, and celebrate victories such as increased access to treatment and prevention services.

The event was started on 10:00 am.

(Campus cleaning)

(Report)

Clean Campus promotes Hygiene, It improves hygiene level in campus and also helps to reduce the spread of sickness, maintaining a clean college environment sets a good example to students. Cleanliness encourages learners to take pride in their college, which makes them less likely to drop litter and as such they will potentially make a bigger effort to maintain their environment. Cleanliness gives rise to a good character by keeping body, mind, and soul clean and peaceful. Maintaining cleanliness is the essential part of healthy living because it is the cleanliness only which helps to improve our personality by keeping clean externally and internally.

JES College of Science Commerce and IT has organized Campus Cleaning program on 16th February 2022 to educate and to promote civic sense among students community. Extra curricular club students went to all the classes and briefed about the importance of cleanliness of the campus. Students were advised not to throw paper plates, water bottle, paper cups, tissues, and many unwanted things on campus Lawns, Library, cafeteria, umbrella canteen, garden, sitting Area, corridors, class rooms, pathway and other open areas which is very unhygienic to all of us. They were also informed to make the college campus & class rooms a beautiful place for one and it makes individuals healthier when the environment around them is healthy.

The event was started on 9:00 am.

(Street play on COVID-19)

(Report)

Coronavirus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus.

Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention. Older people and those with underlying medical conditions like cardiovascular disease, diabetes, chronic respiratory disease, or cancer are more likely to develop serious illness. Anyone can get sick with COVID-19 and become seriously ill or die at any age.

The best way to prevent and slow down transmission is to be well informed about the disease and how the virus spreads. Protect yourself and others from infection by staying at least 1 metre apart from others, wearing a properly fitted mask, and washing your hands or using an alcohol-based rub frequently. Get vaccinated when it's your turn and follow local guidance.

The virus can spread from an infected person's mouth or nose in small liquid particles when they cough, sneeze, speak, sing or breathe. These particles range from larger respiratory droplets to smaller aerosols. It is important to practice respiratory etiquette, for example by coughing into a flexed elbow, and to stay home and self-isolate until you recover if you feel unwell.

The event was started on 10:00 am.

(Street play on Nirbhaya)

(Report)

The woman and her friend Pandey were returning home after watching the movie "Life of Pi" on the night of December 16, 2012. They boarded an off-duty charter bus at Munirka bus stand in which there were six other men including the bus driver. The bus started moving in an off-route direction and the men shut the doors of the vehicle. Suspecting something wrong, when Pandey raised an objection, he was shouted down and a scuffle broke out as the men who were drunk started molesting her. Her friend was knocked down with a rod and the men dragged her to the back of the bus and repeatedly gang-raped for over an hour.

As she fought back, one of the juvenile attackers inserted an iron rod into her private parts, pulling and ripping her intestines apart. The bus driver drove all over Delhi while this was happening. After the attack, both of them were thrown out of the bus to die at the side of the road. The two were found half-dead by a passerby who informed the Delhi Police. She was taken to the Safdarjung Hospital where doctors found she had only five per cent intestines left inside her body. She succumbed to her injuries on December 29, 2012. In her statement to Police, she said she wanted justice against the six attackers. The incident led to widespread demonstrations and protests across the country. It also started changes in the laws about violence against women.

The rape laws in India do not permit using a victim's name in media. Hence, various publications gave her different names, out of which 'Nirbhaya' which means 'fearless' was widely used. In 2013, she received the International Women of Courage Award from the US Department of State, posthumously.

The play was performed on 10:00 am.
