## Research Cell

Report for Academic Year 2022-2023

### Committee Members:

Mr Chitrath Kate (Convener)

Mr Aniruddha Kumawat (Member)

### Summary of Activities:

- 1. Session on Intellectual Property Rights:** The Research Cell at our college organized an enlightening session on Intellectual Property (IP) rights, aimed at enhancing awareness and understanding among faculty and students. The session covered various aspects of IP, including patents, copyrights, trademarks, and trade secrets. The resource person for the session was Dr Hema Mehta who discussed the importance of protecting intellectual creations and innovations in academic and professional settings. Participants gained valuable knowledge on how to identify, protect, and manage their intellectual assets effectively, thereby fostering a culture of innovation and creativity within the institution.
- 2. Webinar on Identifying Research Gap:** In a bid to empower researchers with the skills necessary for conducting impactful studies, the Research Cell organized a webinar focused on identifying research gaps. The resource person for the session was Dr Vinita Pimple. The webinar aimed to equip participants with techniques and strategies to critically analyze existing literature, identify unanswered questions, and conceptualize research projects that address significant gaps in knowledge. Distinguished scholars and researchers shared their expertise, guiding attendees through practical examples and case studies. Participants learned how to formulate research questions that are both novel and relevant, thereby contributing meaningfully to their respective fields of study.
- 3. Workshop on Research Problem and Proposal:** Recognizing the pivotal role of a well-defined research problem and proposal in the research process, the Research Cell conducted a comprehensive workshop tailored to assist researchers in formulating clear research objectives and developing robust research proposals. The workshop was conducted by in-house research scholars. It covered essential elements such as problem identification, literature review, research design, methodology selection, and proposal writing techniques. The workshop fostered a collaborative learning environment, encouraging researchers to refine their ideas through constructive feedback and peer interaction.
