Aniversity of Mumbai

Syllabus for Basket of VES

Board of Studies in Value EducationUG First Year ProgrammeSemesterITitle of PaperCredits 2I) Environmental Management
& Sustainable Development -IFrom the Academic Year2024-25

Name of the Course: Environmental Management & Sustainable Development -I

Sr. No.	Heading	Particulars
1	Description the course : Including but Not limited to :	Environmental awareness transcends academic boundaries. This course transcends academic boundaries, equipping you with a foundational understanding of ecosystems, biodiversity, and the human impact on natural resources and climate. Students will learn about critical issues like pollution and explore solutions for a sustainable future.
		The knowledge you gain here connects with diverse fields such as biology, economics, and even engineering. It is a foundation for further exploration in environmental science, conservation biology, and environmental policy.
		This course ignites your interest in environmental issues and opens doors to exciting careers in environmental management, conservation, and sustainable development – fields with growing demand across industries.
		Prepare for an interactive learning experience through engaging lectures, stimulating group discussions, and insightful case studies examining real-world environmental challenges and solutions.
2	Vertical :	Open Elective
3	Type :	Theory
4	Credit:	2 credits / (1 credit = 15 Hours for Theory or 30 Hours of Practical work in a semester)
5	Hours Allotted :	30 Hours
6	Marks Allotted:	50 Marks
7	 Course Objectives: 1. To create and disseminate knowledge to the students about environmental problems at local, regional and global scale. 2. To introduce about ecosystems, biodiversity and to make aware for the need of conservation. 3. To sensitize students towards environmental concerns, issues, and impacts of 	

	human population.		
	4. To prepare students for successful career in environmental departments, research		
	institutes, industries, consultancy, and NGOs, etc.		
8	Course Outcomes: 1. Use principles of Environmental Science for explaining sustainable development		
	and its related ethical concerns2. Display scientific perspective for issues confronting our present day environment.		
	3. Analyze the national and global environmental issues relating air, water, soil, and		
	land use, biodiversity, and pollution.		
	4. Explain the Role of an individual in relation to human population and		
	environmental pollution.		
9	Modules:-		
	Unit I: Ecosystems, Biodiversity and Conservation (8 lectures)		
	Introduction, structure, and function of ecosystems; Energy flow: food chains, food webs and ecological succession. Case studies of the following:		
	b) Grassland ecosystem		
	c) Desert ecosystem		
	 d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries) 1. Levels of biological diversity : genetic, species and ecosystem diversity; 		
	2 India as a mega-biodiversity nation: Endangered and endemic species of India		
	3. Threats to biodiversity: Habitat loss, poaching of wildlife, man-wildlife		
	conflicts, biological invasions; Conservation of biodiversity: In-situ and Ex-situ		
	conservation of biodiversity.		
	4. Ecosystem and biodiversity services: Ecological, economic, social, ethical,		
	aesthetic and Informational value.		
	Unit II: Natural Resources and Sustainable Development (7 lectures)Overview of natural resources: Definition of resource; Classification of natural resources- biotic and abiotic, renewable and non-renewable.Biotic resources: Major type of biotic resources- forests, grasslands, wetlands,		
	wildlife and aquatic (fresh water and marine); Microbes as a resource; Status and challenges		
	Water resources: Types of water resources- fresh water and marine resources:		
	Availability and use of water resources; Environmental impact of over-exploitation,		
	issues and challenges; Water scarcity and stress; Conflicts over water. Soil and mineral resources: Important minerals: Mineral exploitation: Environmental		
	problems due to extraction of minerals and use; Soil as a resource and its		
	degradation.		
	Energy resources: Sources of energy and their classification, renewable and nerewable sources of energy; Conventional energy sources- coal, oil, natural g nuclear energy;		
L			

Non-conventional energy sources- solar, wind, tidal, hydro, wave, ocean thermal, geothermal, biomass, hydrogen and fuel cells; Implications of energy use on the environment.

Introduction to sustainable development: Sustainable Development Goals (SDGs)-

		targets and indicators, challenges and strategies for SDGs.		
		Unit III: Human Communities and the Environment (8 lectures)		
		1. Human population growth: Impacts on environment, human health and welfare		
		2. Resettlement and rehabilitation of project affected persons; case studies.		
		3. Disaster management: floods, earthquake, cyclones and landslides.		
		4. Environmental movements: Chipko, Silent valley, Bishnois of Rajasthan.		
		5. Environmental ethics: Role of Indian and other religions and cultures in		
		environmental conservation.		
		6. Environmental communication and public awareness, case studies (e.g. CNG		
		vehicles in Delhi).		
F	Unit IV: Environmental Issues; Local, Regional, and Global (7 lectures)			
	Environmental issues and scales: Concepts of micro-, meso-, synoptic and planetary			
	scales; Temporal and spatial extents of local, regional, and global phenomena.			
		Pollution: Impact of sectoral processes on Environment, Types of Pollution- ai		
		noise, water, soil, municipal solid waste, hazardous waste; Transboundary air		
		pollution; Acid rain; Smog.		
	Land use and Land cover change: land degradation, deforestation, desertification			
		urbanization.		
		Biodiversity loss: past and current trends, impact.		
		Global change: Ozone layer depletion; Climate change.		
-		Global change: Ozone layer depletion; Climate change.		
Ī	10	Global change: Ozone layer depletion; Climate change. Text Books 1

12	Internal Continuous Assessment: 40%	Semester End Examination: 60%		
13	Continuous Evaluation through:			
	Quizzes, Class Tests, presentation, project, role play,			
	creative writing, Visits, assignment etc. (at least 4)			
14	Format of Question Paper: for the final examination			
	For OE: External - 30 Marks (2 Credits)			
	Internal - 20 Marks			
	Question Paper Format for 30 Marks			
	Format of Question Paper: 30 Marks per paper Semester End Theory Examination:			
	1. Duration - These examinations shall be of one hour duration.			
	2. Theory question paper pattern:			
	a. There shall be 04 questions each of 10 marks out of which students will attempt ANY			
	THREE
